Pollen allergy - resolved within a short time

Dear friends of Crystalswiss
Grüezi from Switzerland!

As the coronavirus pandemic continues, and most governments worldwide are introducing stricter limits on the public, freedom returns step by step and people will soon be able to go back to nature without hindrance.

Imagine, however, a beautiful day in May, you are outdoors, the sun warms your skin, the flowers bloom, the trees and bushes glow in their full bloom and the birds are singing their songs

Yes, but you cannot see and feel it because your eyes and nose are swollen from hay fever. The very thought of it is terrible - and what is it like for those affected ?!

<https://youtu.be/NoYHVHqCCE>

More and more people are suffering from the unpleasant symptoms of this pollen allergy.

Do you know someone who has suffering?
Or are you affected yourself?

Then you know that drugs like cortisone have strong side effects.
Perhaps you can already guess that profound entanglements will be uncovered in the pharmaceutical and institutional sector in the near future.

It is becoming increasingly important that you, as a free and confident person, take responsibility for yourself.

Natural products that really work have their place of determination.

With the Crystal® A + B Concept Curcumin you can resolve the pollen allergy.

We look forward to your questions, suggestions and orders!

We are glad to be here for you. info@crystalswiss.com.

Sincerely!

Daniel Flühler, Crystalswiss AG
